Firat University | Software  
Engineering | 3.01 / 4  
Sep 2019- Sep 2023

## WORK EXPERIENCE

### Intern .NET Backend Developer (Aug 2022 – Sep 2022)

DIAS Technology – Ankara

- My responsibilities in DIAS Tech was to be involved in the development of a custom web application for the company. Spearheaded the design and implementation of a microservices architecture that streamlined application functionality, leading to improved response times by 30% during database integration for a custom web application project.

### Intern Laravel Fullstack Web Developer (July 2023 - Aug 2023)

Erkay Technology- Sakarya

- Developed user-friendly interfaces and microservices utilizing MVC architecture at Erkay Technology, contributing to the successful deployment of three major projects that enhanced user engagement by ensuring seamless navigation.

### Firat University DDO Backend Developer (October 2022 – Sep 2023)

- Collaborated with cross-functional teams to enhance the backend processes of the Frat Mobile, ensuring seamless integration with front-end features; the streamlined workflow is now utilized by 15 developers across departments.

### Laravel Fullstack Web Developer (June 2024 – December 2024)

FINIC- Holland,Rotterdam

- Created responsive websites for international clients, optimizing for both mobile and web platforms using Laravel and MVC. Streamlined server management with Plesk and ensured smooth team collaboration through Git version control.
